Subject: Status of application - Women for America First (21-0212)

Good morning,

I have been assigned your application, Women for America First (21-0212), requesting the use of Freedom Plaza and the Lincoln Memorial.

Currently, we have received several other applications prior to receiving your application, requesting the use of the same park areas. The 59th Presidential Inaugural Committee (PIC) has two of these applications.

After some delay, we are just beginning the planning process with representatives of the PIC planning team. At this time, they have not provided a detailed plan that would allow me to understand what if any park areas they will use to support their inaugural plans. However, I

expect that it will be sometime next week before their formal plans are presented. Until they do, I do not know what areas will become available for other events.

At this time, we do not have any large open space areas that would accommodate the size and scope of the planned rally/march described in your application. If you would like to move forward with planning your demonstration as presented on your application, you will have to consider staging the event outside of the downtown memorial core area.

Additionally, your equipment lists includes items to be determined by December 31, 2020. With the number of expected attendees, you will have to provide much more logistical support in the form of first-aid medical, portable toilets, turf protection flooring and other materials, to support the number of people that you list as your expected maximum crowd size.

Given all the above, please let me know how you would like to proceed.

Thank you
